# **POIC Payload Video and Payload Data Archiving Requirements**

**POIWG  
7/22/2014**

***Melanie Bodiford***

---

## **Payload Video and Archiving Requirements**

---

- ◆ **POIC distributed video which provides new high definition and privacy constraints for payloads in Increment 39/40**
  - Biotube (non-private)
  - Robonaut (private)
- ◆ **POIC will store science data, including POIC distributed Payload Video, for at least two years**
- ◆ **POIC does not have a requirement to archive science data/video**
- ◆ **The Standard Payload Integration Agreements (PIAs) are being updated to clarify that archiving is the responsibility of the Payload Developer, including**
  - Meeting any applicable NASA records retention schedules
  - Delivery of data to appropriate discipline databases
